VII. All persons contravening these regulations, or interfering with the harbour-master in the discharge of his duty, shall be subject to the penalties provided by the Act, entituled, "An Act to amend an Act for improving the Navigation of the River Cart, and for deepening and extending the Harbour of Paisley in the County of Renfrew."

No carriage will be licensed unless it be provided with lamps, and have roof, springs, wheels, cushions, lining, pannels, doors, and windows, clean, and in good repair, and the steps of entry safe and convenient, and that skin, rope, or coir mats, or other matting equally comfortable, are provided for passengers, feet.

The owner of each licensed carriage shall have the same ready to take a fare at the stands appropriated as public stands, from nine o'clock in the morning until ten o'clock at night, and, within their respective yards, coach-houses, or stables, after being called upon, between ten o'clock at night and nine o'clock in the morning of every lawful day.

Every driver shall deliver to the person hiring his carriage—if demanded—a ticket, having printed thereon the number of the carriage, the name of the proprietor, and the following words:—"Reference in case of incivility, loss, or overcharge."

If any owner or driver shall refuse or delay to take a fare if not before engaged; or if any owner or driver, having agreed to take any fare, at any time, or from any place, shall delay, neglect, or refuse so to do, every person so offending, shall forfeit and pay for each such offence a sum not exceeding twenty shillings; and for every offence subsequent to a first offence, a sum not exceeding forty shillings.

No person shall be permitted to act as driver of any such carriage who is under seventeen years of age, or who is not known to the owner to be of good behaviour, and to have had experience in driving, and to be capable of such employment; and no person shall act as driver without the consent of the owner.

In every case of any property being inadvertently left in any carriage, by any person or persons who may have hired or used the same, such property shall be taken and delivered up to the person or persons who have left the same, or shall, within twelve hours, be taken in the state in which it was found to the police office, and there delivered to the chief officer on duty, with the name of the owner and driver, and number of the carriage.

No owner or driver shall canvass or importune for employment—nor shall carriages be taken from their station in search of employment, but shall wait their chance in proper order.

If the carriage be detained longer, a charge shall be allowed for waiting at the rate of sixpence for every twenty minutes, or part thereof, commencing at the period when the free waiting expires.

BLAIR & CO.,

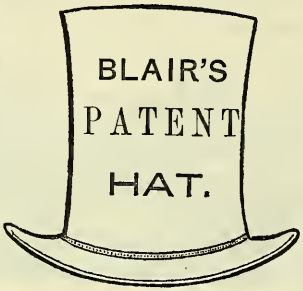
28 HIGH STREET, PAISLEY.

BY HER MAJESTY'S ROYAL LETTERS PATENT.

The utility and value of this Hat have been fully proved by the great and increasing demand, as also by the numerous futile attempts that have been made at IMITATION, all of which have failed to commend themselves to the wearer.



PATENT

Dated March 29, 1855.

Renewed March 29, 1858.

Renewed March 29, 1862.

THE PRINCIPAL ADVANTAGES DERIVED FROM WEARING

BLAIR'S PATENT HAT,

ARE:—

FIRST. GOOD AND EASY FIT. — The immediate yielding of the Hat to any form of Head, producing at once an extremely easy and exact fit.

SECOND. PROPER VENTILATION. — By the correct principle on which this Hat is ventilated, the Head is kept always cool and comfortable, thereby conducing to the general health of the body, and preventing premature baldness or loss of the hair.

THIRD. CANNOT BE DESTROYED BY GREASE. — From the construction of the Frame or Body of the Hat, it is impossible that the brim, or side crown, can become saturated, or in the least destroyed by grease or perspiration.

FOURTH. RETAINING ORIGINAL SHAPE. — The part of the Hat that fits on the Head being double, with a space between the two thicknesses, and the inner one only taking the shape of the head, allows the exterior of the Hat to retain its proper and original shape.

The above advantages, which are in every respect of the greatest importance, cannot be claimed for any other Hat at present in use.

JENNINGS' PATENT SEWER PIPES.

ROBERT BROWN,

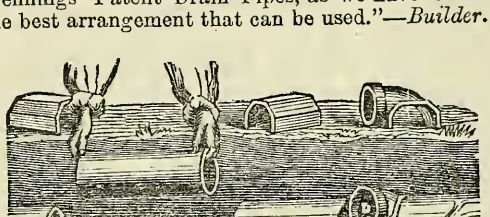
FERGUSLIE FIRE CLAY WORKS,

AND

CALEDONIA AND SHORTROODS BRICK AND DRAIN TILE WORKS, PAISLEY,

Now holds the exclusive right from the Patentee to Manufacture and Sell these Pipes in all Scotland, with the liberty to Sell in Ireland and in Foreign Countries.

"Mr. George Jennings' Patent Drain Pipes, as we have before taken occasion to say, are certainly the best arrangement that can be used."—*Builder.*



The Pipes are the most perfect yet introduced, and are universally acknowledged as the only improvement yet effected on the ordinary Socket or Half-Socket Pipe.

The following are some of the advantages offered by the use of these Pipes:—

1st, These Pipes, which are plain at both ends, are laid in the rebates of the chairs a sufficient distance apart to admit of the workman striking up the joint of the invert perfectly fair on the inside, thus avoiding the burr of the cement, or other stopping material being left to impede the flow of sewage, and ultimately stopping up the drain.

2nd, The Superintendent of the Works can insure this being effectually done by personal examination, before allowing the saddle pieces to be put on.

3rd, Facilities for examination, such as no other system of drainage presents, or admits of, as in the event of stoppage, it is only necessary to remove the Upper Saddle at any point, when the cause of the stoppage is at once ascertained and removed, without in any way damaging the drain, the only expense being the labour.

4th, Should Branch Drains be required at any future time, it is only necessary to remove any one of the Plain Saddles, and to substitute for it a Junction Saddle, as at D which, by turning round, is available for either side of the street.

These Pipes, with all the advantages they possess, are the same price per yard including the Patent Saddle and Cradle, as charged for the ordinary Socket Pipes. Single Junctions and Bends of every kind, including the Patent Saddle and Cradle charged as 1½ yards; Double Junctions, as 2 yards; and Cesspools, as 3 yards.

The usual Socket Pipes also made, and sold as formerly; along with Ornamental Chimney Cans, Vent Linings, Joist Shields, Fire Bricks, &c., &c., and all articles made of fire clay.

Machine made *Building Bricks*, and also *Drain Pipes*, and *Tiles* for Field Drainage of all sizes, and of the best quality.

Prices and all further particulars furnished on application.
